

Computerized Maintenance Management System (CMMS) Software Market Size – Industry Share Report 2025

WiseGuyReports.com Presents "Global Computerized Maintenance Management System (CMMS) Software Market 2019 by Company, Regions, Type and Application, Forecast

PUNE, INDIA, September 3, 2019
/EINPresswire.com/ --
Market Overview

The [computerized maintenance management system \(CMMS\) software](#) refers to a software package useful in maintaining a computer database of all the important information about the maintenance operations of an organization. The system helps the management of the organizations to make informed decisions. The CMMS software helps in tracking and record-keeping of completed as well as assigned tasks in a cost-effective and timely manner.

The software helps in the tracking as well as scheduling of maintenance tasks and also holds comprehensive records of all the works performed by the different businesses. The computerized maintenance management system (CMMS) software finds large applications in scheduling activities, auditing, tracking orders, inventory management, external activity request, registering asset history, and certification. CMMS data is also utilized for the verification of regulatory compliance. The CMMS software market is expected to grow at a CAGR of 9.79% over the forecast period.

Major Players

The global computerized maintenance management system (CMMS) software is a highly competitive market with a large number of competitive players involved. Some of the key players in the global scenario are IBM, Dude Solutions, ServiceChannel, Siveco, DPSI, and eMaint. Other significant players in the market include Maintenance Connection, MicroMain, Sierra, Real Asset Management, Fiix, MCS Solutions, ManagerPlus, FasTrak, Axxerion, Hippo, UpKeep, MVP Plant, IFS, MPulse, and other players. The investment in the innovations and research and development is increasing the revenues of the key players in the global market. The mergers and acquisitions among the dominating players are expected to strengthen the growth of the market further.
