

Cardone Capital: Real Estate Investing For Everyday Investors

With no complex deals or confusing contracts, Cardone Capital provides the ideal investment opportunity for everyday investors.

AVENTURA, FL, USA, September 6, 2019 /EINPresswire.com/ -- Real estate investment firm [Cardone Capital](#), specializing in the multifamily housing sector, has a portfolio of over 6,200 units valued at over \$1.3 billion assets

under management in states that include California, Arizona, Texas, Tennessee, North Carolina, Georgia, Alabama, and Florida. The company is planning a huge expansion of its portfolio over the next five years and unlike most of its competition, offers non-accredited funding opportunities to everyday investors.

“

Don't hesitate. Take your money out of the bank where it's doing nothing, and put it to work in the best way possible with Cardone Capital.”

Grant Cardone

According to founder and CEO Grant Cardone, the process of investing with Cardone Capital is easy and stress-free.

“If you're new to investing, Cardone Capital would be your best choice for a number of reasons,” says Cardone.

Cardone points out that his company has over 30 years of experience with income-producing housing in high-growth markets.

“Real estate has been a passion of mine since I was a child, and I've been making investments in real estate across the United States for decades. I originally founded Cardone Capital to allow my friends and family to take advantage of the great opportunities I discovered. But now, anyone can participate, and you don't have to be an accredited investor to do so.”

The investment process is completely hassle-free for the investor. Cardone Capital finds the deals, negotiates the purchase and financing, and closes the transaction:

“You make your investment. Whether you're an accredited or non-accredited investor, you become a partner in the actual real estate. And this is not a REIT or stock.”

The rental units are already rented out to creditworthy tenants, and Cardone Capital collects the rent and looks after property maintenance. Investors get paid on a monthly basis, and will start to see a cash flow within 30 to 90 days.

Additionally, some investors may be able to take advantage of tax benefits because of depreciation.

“Don't hesitate,” Cardone advises. “Take your money out of the bank where it's doing nothing, and put it to work in the best way possible with Cardone Capital.”
