Doing something useful and helpful for others supports the company virtues of feeling good and living life the best that you can, and Mr. Bergstrand believes that one of the most valuable things that Rightside Up Apparel does as a company is to give back. The company's "Buy a Shirt, Give a Shirt" program benefits persons and organizations in need by donating a shirt for every piece of apparel sold. "I wish I could say that together we are going to save the world, but unfortunately that's not the case. However, when there is a bigger smile on a person's face, or someone feels better about themselves because of their new shirt, or this is the only shirt they might have for now, or even someone just knows that there are people who care enough to give, then we are making a difference in lives, and it is with one shirt at a time."

Rightside Up apparel was created out of the promise that life is a journey. Everyone has a life story, and it doesn't matter where they've been. It's where they are going that counts! We all have the power to choose the self-righting attributes of forgiveness, hope, love and faith that enable us to live Rightside Up. Rightside Up Apparel has incorporated these qualities into the meaning behind their clothing line and has given clothing a voice with positive and inspirational video messages. They use subtle graphics with powerful meaning behind them.

The apparel comes in men's, women's and youth sizes and includes T shirts, sweatshirts, sweatpants, tank tops, polos, leggings, shorts, performance ware, 1/2 zip, 3/4 sleeve, caps and accessories.
