In an age where outdoor activities are becoming less common due to intensive urbanization and change in lifestyle; [Amusement Parks](#) offer the perfect outdoor opportunity for all age groups to enjoy and get thrilled by the entire adrenaline-pumping experience offered here. An amusement park refers to an area featuring attractions such as rides, food, entertainment and games. These parks often feature multiple themes for multiple areas; or are built around a central-theme (Theme Parks). Unlike temporary fairs /carnivals; amusement parks are permanent and stationary. Built much more elaborately than playgrounds and city parks, Amusement Parks offer several attractions at one place. The most important aspect of this boom in the number of Amusement Parks can be attributed to greater disposable income amongst people and a desire to experience the outdoors, in an era characterized by smart phones and laptops.
