Consumer goods are bought for consumption by the average consumer and are also acknowledged as final goods. They are the results of manufacturing and production, and what consumers consider seeing on the store shelf. They are tangible goods, purchased for direct consumption in order to satisfy human needs. They are classified into convenience products, specialty products, shopping products, and unsought products. Of these, convenience products experience the maximum demand as they are bought regularly by the consumers

If you have any special requirements, please let us know and we will offer you the report as you want.
