

# Communicable Disease and Therapeutics Market 2019 Global Opportunities And Industry Analysis Forecasts To 2024

*communicable disease -Market Demand, Growth, Opportunities and Analysis Of Top Key Player Forecast To 2024*

PUNE, MAHARASHTRA, INDIA, September 10, 2019 /EINPresswire.com/ -- [Communicable Disease Industry](#)

## Description

The global market for communicable disease should grow from \$57.7 billion in 2019 to \$69.4 billion by 2024 at a compound annual growth rate (CAGR) of 3.8% for the period of 2019-2024. The market is expected to grow during the forecast period owing to rising prevalence of sexually transmitted diseases, growing awareness regarding communicable diseases, development of novel therapies, and growing public and private partnership for research of new therapies.

The global communicable disease market is segmented based on disease indication and region.

North America is estimated to have the highest market share and the Asia-Pacific region is anticipated to have the highest growth rate during the forecast period. The increase in health care expenditure in the Asia-Pacific market, growing research and development activities, and increase in prevalence of STDs, HIV, and infectious diseases coupled with growing government initiative in creating awareness regarding communicable disease are the major factors augmenting the growth of communicable disease market in the Asia-Pacific region.
