

# High Temperature Energy Storage Market 2019, Global Industry Analysis, Size, Share, Growth, Trends and Forecast - 2024

*A New Market Study, titled "High Temperature Energy Storage Market Upcoming Trends, Growth Drivers and Challenges" has been featured on WiseGuyReports.*

PUNE, MARKETERSMEDIA, INDIA, September 11, 2019 /EINPresswire.com/ -- Summary

A New Market Study, titled "High Temperature Energy Storage Market Upcoming Trends, Growth Drivers and Challenges" has been featured on WiseGuyReports.

This report provides in depth study of "High Temperature Energy Storage Market" using SWOT analysis i.e. Strength, Weakness, Opportunities and Threat to the organization. The High Temperature Energy Storage Market report also provides an in-depth survey of key players in the market which is based on the various objectives of an organization such as profiling, the product outline, the quantity of production, required raw material, and the financial health of the organization.

The High Temperature Energy Storage (HiTES) market report provides the entire inclusive analysis of the impact on market growth. High Temperature Energy Storage is a technology that stocks high temperature energy by heating or cooling a storage medium. So the stored energy will be used at a later time for the applications of heating and cooling also for power generation.

This report is also examined through qualitative analysis approach and quantitative analysis approach of the global High Temperature Energy Storage (HiTES) market. The global High Temperature Energy Storage market was valued at approximately USD 24.88 billion and will reach USD 30.45 billion in 2025 and growing at a CAGR of around 5.1% between 2019 and 2025. The numerous approaches and techniques were employed to gather and evaluate the information of High Temperature Energy Storage (HiTES)

This report starts from the overview of Industry Chain structure, and describes industry environment, then analyses market size and forecast of High Temperature Energy Storage by product, region and application. Additionally, this report covered the topics of market competition situation among the vendors and company profile, besides, market price analysis and value chain features.

High Temperature Energy Storage is a technology that stocks high temperature energy by heating or cooling a storage medium so that the stored energy can be used at a later time for heating and cooling applications and power generation

Key manufacturers are included based on company profile, sales data and product specifications etc.:

ABENGOA SOLAR

Siemens

SolarReserve

GE

Bright Source

NGK Insulators  
Archimede Solar Energy  
Linde  
TSK Flagsol  
Idhelio  
Sunhome

This market report offers a comprehensive analysis of the global High Temperature Energy Storage market. This report focused on High Temperature Energy Storage market past and present growth globally. Global research on Global High Temperature Energy Storage Industry presents a market overview, product details, classification, market concentration, and maturity study. The market value and growth rate from 2019-2025 along with industry size estimates are explained.

The latest advancements in High Temperature Energy Storage industry and changing market dynamics are key driving factors to depict tremendous growth. Also, the risk factors which will have a significant impact on the Global High Temperature Energy Storage industry in the coming years are listed in this report. The revenue-generating High Temperature Energy Storage types, applications, and key regions are evaluated. Top growing regions and High Temperature Energy Storage industry presence cover Asia-Pacific, North America, Europe, Middle East, African countries and South America. This High Temperature Energy Storage business study also analyzes the top countries in these regions with their market potential.

The main contents of the report including:

Global market size and forecast

Regional market size, production data and export & import

Key manufacturers profile, products & services, sales data of business

Global market size by Major Application

Global market size by Major Type

Major applications as follows:

Grid Load Leveling

Stationary Storage

Concentrated Solar Power (CSP)

Others

Major Type as follows:

Sodium-sulfur (NaS) Batteries

Sodium-metal halide (NaMx) Batteries

Molten salt thermal energy storage (TES) Systems

Regional market size, production data and export & import:

Asia-Pacific

North America

Europe

South America

Middle East & Africa

Major Key Points in Table of Content

1 Global Market Overview

2 Regional Market

3 Key Manufacturers

4 Major Application

5 Market by Type

6 Price Overview

7 Conclusion Fig Global High Temperature Energy Storage Market Size and CAGR 2013-2018 (Million USD)

Continued....
