

# Nutraceuticals Market to Gain from Rising Cases of Chronic Diseases

---

*Wiseguyreports.Com Adds "Nutraceuticals: Global Markets to 2023" To Its Research Database*

PUNE, MAHARASHTRA, INDIA, September 16, 2019 /EINPresswire.com/ -- [Nutraceuticals Industry](#)

## Description

Nutraceuticals are food supplements taken to maintain the nutrient content of the body. They are prepared from the regular food diet but with some modification in molecular design and nutrient content. The different medical and health organizations claim that the Nutraceuticals are meant to cure some chronic diseases and maintain the required carbohydrate and protein content of the body builders. However, they are now preferred by common people too as they have realised the potential of nutraceuticals in building up the immunity. The growth of the global Nutraceuticals market would depend much on the quality and the medical accuracy of each of the product.

The report elaborately discusses driving factors that would help the Nutraceuticals market grow. Main factors are rapid urbanization, dependence on industrial products and advancement of technology. The fast growing population of younger generation are becoming increasingly health-conscious. Some of them join body-building where they are instructed to take nutraceuticals. Besides this the aged population often requires serious medication which include Nutraceuticals.

## Market Players

The major market of the Nutraceuticals market is Abbott Laboratories Inc., BASF SE, Cargill Inc., Mead Johnson Nutrition Co., Nestle Nutrition, Omega Protein Corp., and Zymes LLC ADVANCED ORTHOMOLECULAR RESEARCH INC., AJINOMOTO CO., INC. ARCHER DANIELS MIDLAND CO., ARISTA INDUSTRIES.

## Segmentation

The detailed analysis of the report of Nutraceuticals market involves the segmentation of the market based on product.

Based on the product, the segmentation of the nutraceuticals market includes functional foods, functional beverages, and dietary supplements. The dietary supplements is witnessing strong growth due to growth in the number of health conscious people who are not having regular doses of nutrients due to their fast lifestyle. The functional foods and the functional beverages segment are also expected to benefit from such scenario.

## Regional Market

The report includes the detailed analysis of the different regions posing as active manufacturers for the development of the market in global standards. This report helps in understanding the future prospects of the Nutraceuticals market. North America, South America, Europe, Asia Pacific (APAC), and the Middle East and Africa (MEA) are regions that have been included in the report. The report highlights various changes in the regional scope and help to get more knowledge on the probabilities that can pace up the growth of the market in the future.

The European and the North American markets are expected to gain substantially from their robust infrastructures, high investment capacities, and state-of-the-art research facilities, which can lead to innovation and better implementation of new products. The US, the UK, France, Germany, and others are expected to provide substantial traction to the market. Moreover, most of the manufacturing companies are from these two regions.

The APAC region, the countries like China, Japan, and Singapore, Australia, Thailand, and India are expected to witness remarkable growth due to the increase in the participation from various global players who are trying to capitalize on regional infrastructure and capitalize on the huge population base to increase market profit.
