Food items consumed at food service outlets such as cafes, theatres, airports, hotels, restaurant's, and others fall in the food service category. The food service segment offers the advantages of convenience and enhanced taste. The foodservice industry operates amid the challenges of keeping up with ever increasing consumer demands while maintaining profit and keeping costs down. Urbanization and western influence, especially in the emerging economies has paved the way for the expansion of the food service segment. The number of fine dine, casual dining, and quick service restaurants have witnessed a steep surge in the recent years. Additionally, home delivery and take away have also gained popularity. Both the food retail and food service segments are influenced by various key considerations which include location, cost, sales and marketing strategies, profit management and human resource management.

A new report added to the online inventory of Wise Guys Reports (WGR) reveals that the global specialty food ingredients market is set to capture a compound annual growth rate (CAGR) of 6.2% between 2018 and 2024. The market is expected to touch USD 121.6 billion by 2024.
