

RDI Introduces Snap Action Limit Switches

Broad Range of Snap Action Limit and Lever Switches

MOUNT KISCO, NY, USA, September 17, 2019 /EINPresswire.com/ -- RDI today announced the introduction of its SS and SH Series of Limit and Lever [Snap Action Switches](#). RDI's broad range of limit / lever snap action [switches](#) include subminiature, miniature, and metal case models. These [limit switches](#) have a variety of actuator configurations (pin plunger, lever, and roller lever), electrical ratings from low levels up to 30 Amps, and a broad range of operating forces. Terminal styles include PCB through-hole, quick connect, wire leads, screw, solder, formed PC through-hole, flat and step base. Sealed models are available as is SPST, SPDT, DPST and DPDT functionality. Mounting options include vertical or right angle, PCB and snap-in mounting. RDI limit / lever switches perform in many applications including:

RDI Snap Action Limit Switches

- Robotics and automation
- Portable tools and machine tools
- Vending machines, ATMs and arcade games
- Automotive, Garage door openers
- Medical devices (including hospital beds)
- Industrial and computer enclosures, Alarm devices and security systems

With multiple series options to choose from, RDI limit / lever snap action switches provide options across general purpose, precision, interlock, miniature, subminiature, and sealed switch categories ensuring an optimum performance solution for your application.
