The consumer goods industry includes multiple subsectors such as food and beverage, personal care, small appliances, and even clothing and apparel. The substantial growth of the consumer goods industry can be attributed to the focus on the marketing of individual products and promotion of brands. The structure of the industry is broadly classified into manufacturing, marketing, and retail sales. The wide-ranging job roles required for the smooth functioning of the sector are engineers, financial experts, human resource professionals, IT experts, marketing and brand managers, manufacturers, operations managers, researchers, and salesmen, among others. Hence, the industry is majorly responsible for the high rise of global employment rates.
