Based on Vertical, the application gateway market can be divided into the following categories

Banking, Financial Services, and Insurance (BFSI)
Manufacturing
IT and Telecommunication
Government and public sector
Healthcare
Retail
Others (including education, energy, and utilities) BFSI industry vertical to hold the largest market size during the forecast period

The BFSI segment is growing consistently because of the accelerated growth of the financial service organizations and the new entities creating their presence the market. The technological enhancements in the BFSI segment are making the industry an extremely lucrative target for the creation of frauds. Network security along with the cybersecurity industry players are emerging with innovative security measures to meet up with the increasing complexity of the attacks.

Based on Region, the application gateway market can be divided into the following categories

APAC
North America
Latin America
Europe
MEA

Future trends for the application gateway market

North America is expected to hold the greatest market size in the forecast period. This is primarily due to the rising instances of the data breach along with security threats. This region tops the world in terms of the number of security vendors. Thus, the application gateway market is mainly dominated by North America. It is believed that this region is most progressive regarding the adoption of the latest cybersecurity infrastructure and technology.
