Industry Association

Downstream Vendors

Consumer goods are bought for consumption by the average consumer and are also acknowledged as final goods. They are the results of manufacturing and production, and what consumers consider seeing on the store shelf. They are tangible goods, purchased for direct consumption in order to satisfy human needs. They are classified into convenience products, specialty products, shopping products, and unsought products. Of these, convenience products experience the maximum demand as they are bought regularly by the consumers

If you have any special requirements, please let us know and we will offer you the report as you want.

Global rise in food consumption has prompted the F&B sector to expand capacity as the same time focus on innovation in order to sustain the growing pressure. The sector will continue to witness healthy growth over the next couple of years. Changing lifestyle, rising demand for on-the-go-meals and increased consumption of fast-food are some of the key factors influencing the global food & beverage industry.

For market players, innovation is the key to maintain their positions in this competitive marketplace. Players operating in the F&B businesses respond to these needs, tirelessly. In addition to utilizing their experiences, the players also invest substantially in research & development activities. Along with the bold & exotic flavors and novelty in tastes, investments in R&D also bring them attractive packaging solutions that can meet consumers' changing demands.
