By type, the segmentation of the Eco Cable market includes Polyethylene Based and Polypropylene Based. In the industrial sectors, the majorly used type is the Polyethylene Based as it is more durable and can hold the weather extremities.

By application, the segmentation of the Eco Cable market includes Communication, Petrochemicals, and Manufacturing. The cables used for communication are the most delicate and thus, the flexible polypropylene base is used in this case. However, on the other hand, the construction sites require it for electrical purpose and sometimes drainage. They are quite incapable to work without a durable variety of it.

Market Players

The prominent market holders are Prysmian Group, Hitachi, Furukawa Electric, Nexans, Alpha Wire, Oki Electric Cable, Kuramo Electric, Shikoku Cable, JMACS Japan Co. Ltd and Fujikura.
