PUNE, MAHARASTRA, INDIA, September 19, 2019 /EINPresswire.com/ -- [Air Spring Market](#)

Air springs are load-carrying rubber components constructed of a hollow rubber bellow sealed to metal plates attached at the top and bottom. Using air compression, air springs dampen shock and vibration. With a macro-economic perspective, healthy economic growth across geographies is expected to create business opportunities over the forecast period. Increasing penetration of air suspension system into passenger cars and commercial vehicles is projected to turnout as a primary factor supplementing demand for air spring. Over the past decade, sales of luxury vehicles have registered an upsurge, both in developing and developed nations, the preference for luxurious vehicles is not just limited to passenger cars, but also there has been significant demand for luxurious buses and performance trucks.

Many OEMs equip these categories with novel air suspension system and thus turn out to be consumers of air springs. The global air spring market is projected to witness increasing adoption of electronically controlled systems, this trend is expected to continue throughout the forecast period. However, consumption of non-electronically controlled systems is expected to remain dominant.

The following manufacturers are covered:

Continental
Firestone Industrial Products Company
Hendrickson USA
Wabco Holdings
