The Asia Pacific region accounted for a significant market share in 2016 and is expected to grow at a CAGR exceeding 10.0% over the forecast period. The region includes developing nations, such as India, China, and Japan, whose rate of development is faster than most other developing nations in the world. Moreover, Asia Pacific is anticipated to account for nearly half of the global construction industry by 2020. A healthy spread of construction activity supports the stability of the Asian markets, along with government intervention enhancing a majority of projects for infrastructure development.

Developed regions, such as Europe and North America, are expected to witness moderate growth from 2017 to 2025. The regions accounted for over 40% of the total market share in 2016. The growth in the regions can be attributed to increasing disposable income, growing construction spending, and the steady demand for sustainable curtain walls for reducing pollution and enhancing moisture resistance in high precipitation areas.
