

IT Asset Disposition (ITAD) Market 2019 Global Trends, Market Share, Industry Size, Growth, Opportunities, Forecast 2025

This report covers market characteristics, size and growth, segmentation, regional breakdowns, competitive landscape, market shares, trends and strategies

PUNE, INDIA, September 20, 2019 /EINPresswire.com/ -- The global IT asset disposition market is anticipated to showcase an impressive growth trajectory over the assessment period, as per the latest report by Zion Market Research. There are several factors contributing to such growth, which include the emergence of technological advancements in electronics. Apart from that, ascending penetration of mobile devices is another factor supplementing the market growth over the forecast period.

Swelling inclination towards the development of energy-efficient products and an upscaling adoption of the same are in the field are pushing the market to capture higher peaks on the growth chart. Moreover, increasing demand for the IT asset disposition solutions from small and medium-sized enterprises is fueling market augmentation. The global IT asset disposition market is expected to become highly competitive in the forthcoming years owing to the cumulative adoption of cloud-based technologies and lucrative demand for smartphones and tablets.

In addition, concerns faced by enterprises has elevated the need to reduce the power consumption from servers. These concerns ranging from the introduction of new environmental policies to business policies have promoted the adoption of IT asset disposition solutions in enterprises, hence, driving the market.
