The major manufacturers covered in this report

CircleBack Lending
Kabbage
Lending Club
Ondeck
Peerform
Prosper
Borrowers First
Daric
Funding Circle
Pave

SoFi

.....

Most of the SMBs are associated with higher risk as they lack high-quality collateral and long credit histories which induces banks to disapprove their loan requests to meet their short-term credit requirements. As a result, traditional banks have started focusing on catering to the specific needs of potential clients that will help reduce the huge funding gap between large corporates and SMBs. Online lenders use credit data to generate cash flows and analytics at the portfolio level which helps them manage individual portfolios and avoid firm-wide risks. This enables them to provide credit to SMBs at a much quicker rate than traditional banks, in turn, boosting market growth.

The Online Financing Platform for SMBs market has been branched down into various segments to promote a thorough understanding of the overall market structure. Emphasis has been placed on growing segments of the market, and growth rate and market share of each segment have been provided in the report. Market attractiveness of each segment has also been discussed in the report.
