## Introduction

### Global Riot Control System Market

Security measures along with security equipment which are used to control riots are known as riot control systems. The riot control system market is projected to exhibit a healthy growth rate owing to increasing political disputes and extremist attacks. However, declining defence budgets and strict government regulation might hinder the market growth.

The global riot control system market is projected to grow from USD 9.05 Billion in 2016 to USD 13.5 Billion by 2024, at a CAGR of 5.5% during the period. Wise Guys report forecasts the riot control system market and its dynamics over the next five years, while also recognizing market application gaps, evolving technologies, recent developments in the market, and showcases the high potential geographic regions and countries.

Law Enforcement, one of the segments analyzed and sized in this study, displays the potential to grow at over 5.8%. Poised to reach over US\$144.5 Million by the year 2025, Law Enforcement will bring in healthy gains and add significant momentum to global growth.
