

# Private Jet Charter Company New Flight Charters Grows 14.5% Summer 2019 Year-Over-Year, August Soars 18.0%

*Company Outpaces Industry Results as Charters of Super-Midsize and Heavy Jets Rocket 36 Percent*

JACKSON, WYO, UNITED STATES, September 24, 2019 /EINPresswire.com/ -- New Flight Charters, a nationwide leader in on-demand private jet charters since 2004, announced an 18.8% year-over-year increase for August and an 14.5% year-over-year increase for the summer months, June-July-August.

By comparison the Part 135 charter industry as a whole declined -1.1% for August and lost ground every month but July (+1.7%) thus far in 2019, according to industry TraqPak data released by ARGUS International.

## Floating Fleets

The company attributes the increases in part to improved charter pricing options from the growth of "floating fleet" aircraft availability with reduced one-way pricing that are typically better than standard charter quotes, jet cards and memberships for one-way flights or roundtrips over many days. Currently 435 floating fleet aircraft from 39 operators are available to flyers.

Flyers choose their specific aircraft from an array of options and quotes for each flight, sourced per their own preferences for each trip including size, age, make, ratings and amenities, and pay as they go; no membership fee or advance bulk purchase commitment.

## By Aircraft Category

2019 year-to-date, charter demand has moved generally up the aircraft scale. Super-midsize and heavy jets climbed a combined 36%, while midsize jets descended 7%. Light jets were level and Turboprop demand declined 20%.

New Flight Charters has averaged 13.2% annual growth since 2004 with a renowned, long-tenured staff, and was named to the Inc. 5000 Honor Roll as a fastest growing U.S. company four separate years.

The company is the most-accredited charter company in the U.S. and a recognized ARGUS-Registered Broker- one of just thirty-nine ARGUS-rated charter brokers worldwide, and an approved member of the international Air Charter Association- one of only five in the U.S.

## About New Flight Charters
