DejaOffice features a compact business-like contact list that shows Contact names, Company, Email and Phone number all in the list view. The calendar features Day, Week and Month. DejaOffice includes Tasks and Notes with a focus on effective business use. All DejaOffice Apps include [Outlook Compatible Category Colors](#), Persistent Alarms, Recurring Tasks, Quick Entry Templates, and Android Widgets.

“Xiaomi phones are maturing in style and sophistication as affordable business solutions,” says Wayland Bruns, Chief Technical Officer at CompanionLink. “Mobile Professionals seek the advantage of handling more customers for least cost. Using a mobile CRM that smoothly links to office PCs gives them a real marketplace advantage. DejaOffice is the only Android CRM that uses local storage, so you can make notes and updates to your data even when the phone is out of range. When it comes back in range the sync system will catch up with your Office systems.”

CompanionLink® provides [Xiaomi Outlook Sync](#) using a proprietary sync system that is not dependent on Google Sync Microsoft Exchange. CompanionLink fully supports all Outlook fields including Category Colors, Tasks, Notes, Journal, Attachments, and Pictures. With CompanionLink you can use USB, Wi-Fi, Bluetooth and DejaCloud sync. DejaCloud is a subscription service which provides instant real-time sync to multiple PC's and phones. Just enter a new Contact or Calendar item, and you will see it on your desktop, laptop and tablet within seconds, without needing to pay Microsoft or an Exchange host for sync service.

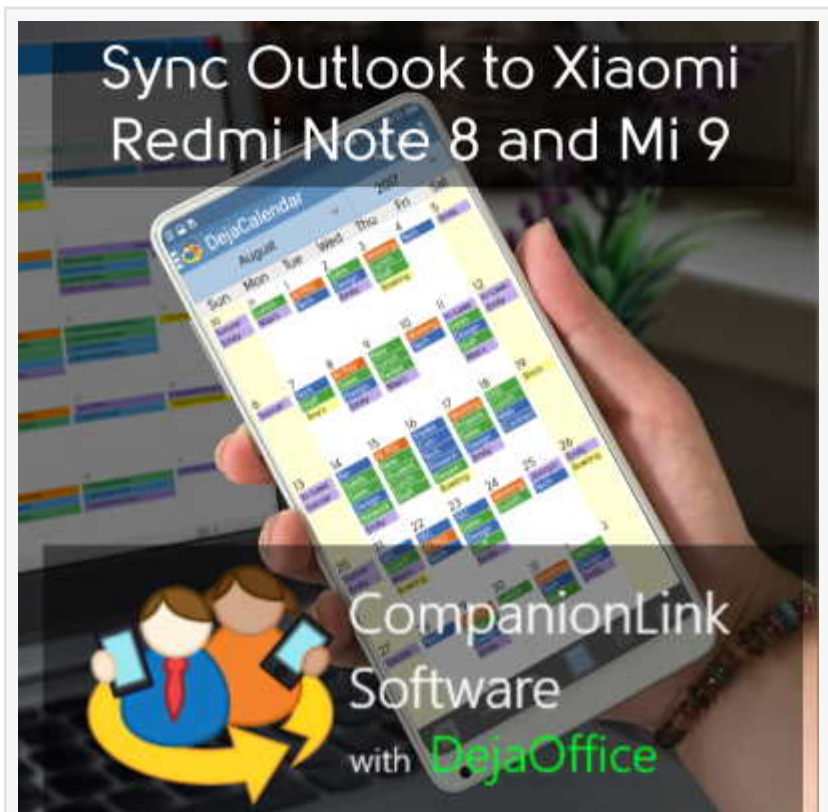

[DejaOffice for Android](#) is free and can be downloaded from the Google Play store. CompanionLink for Outlook is \$49.95 and one license can be used for either PC or Mac. Both CompanionLink and DejaOffice support Chinese Language. CompanionLink is one of the rare

software vendors that answers the phone and helps you install and use the software. Premium support options are available including a service to set up your synchronization and handle any issues you need with PC sync to your phone.
