

Chicago-Area Technology Solution Provider ITsavvy Opens New Downtown Office

ITsavvy just announced that it is opening a new downtown Chicago office to accommodate a growing sales force and vibrant company culture

ADDISON, ILL., U.S., September 26, 2019 /EINPresswire.com/ -- [ITsavvy](#), one of the fastest growing complete technology solution providers in the U.S., just announced that it is opening a new downtown Chicago office to accommodate a growing sales force and vibrant company culture.

The office is located at 33 N. LaSalle St., Suite 2200, Chicago—in the heart of the city’s dynamic Loop. According to ITsavvy’s Director of Sales Chicago Brad Loesche, the new office is designed to promote synergy and collaboration among 30 client executives, engineers and administrators working there.

“It is an exciting space—geared toward the way we interact with each other and our clients,” Loesche said. “We were trying to get away from the isolating cube farm layout. This office has an open feel with loft-inspired architectural features such as exposed piping. While the layout does promote collaboration, at the same time staff members each have private office space—which facilitates more in-depth client conversations.”

Loesche said the new office will give ITsavvy an even wider recruiting edge over competitors—with space amenities such as state-of-the-art conference rooms and access to outstanding building amenities that

traditionally draw employees to LaSalle Street and Chicago’s Loop.

Originally the American National Bank building, 33 N. LaSalle is an architectural landmark in the center of Chicago’s most desirable financial district. This 38-story art deco skyscraper was built in 1928. Vintage details include the original brass entrance to the patina-enhanced motifs at the elevator banks.

“
In many aspects this building is emblematic of ITsavvy-exciting and forward thinking, while rooted in quality.”
