The Israel Tennis & Education Centers (ITEC) was founded in 1976 and over the last 43 years it has grown and evolved into one of the largest social service agencies for children in Israel. ITEC has transformed the lives of hundreds of thousands of children with the goal of igniting hope and opening pathways to a successful future for them and for Israel, now and for generations to

come.

ITEC has created a model of ethnic integration through sports in a safe environment where each and every child is afforded the opportunity to play, dream, learn and make friends within a peaceful community. Many see the centers within their communities as a stable, nurturing "second home" that supports them as they develop into productive, healthy, well-rounded adults, with thousands receiving scholarships to university and employment opportunities, as a result of their participation.

The organization is focused on the core values of education, equality, empowerment and well-being. Through its social impact programs, a wide range of children are served, including youth at risk, immigrants from Ethiopian and Russia and children with special needs, from autism and ADHD to Down Syndrome as well as those with developmental and physical disabilities.

The goal of Israel Tennis & Education Centers is to ensure that every child in Israel is healthy, educated, equal and equipped to pursue their dreams, without religious, economic or social barriers, and has the opportunity to reach their full potential.
