## Advance Praise:

"Michael Bartlett is a gifted astrologer who ponders the patterns of highly successful people, and determines that planets on the angles are of supreme importance. -Leslie McGuirk Leslie McGuirk.com The Importance of Being Wrong, TEDxHollywood

"This thorough and well-researched tome is a welcome, and overdue, addition to the astrological literature. An in-depth exploration of how the planets function at their strongest and most

innovative, along the chart angles, "Astrological Mavericks" provides us with real life examples of individuals who have expressed these archetypal energies in exemplary and unique ways. A useful and illuminating resource for those interested in exploring the energetic touch points of the angles, and the planets various relationships with them."  
 - Aurora Tower, vibrational-astrology.com

"A wide-ranging encyclopedic exploration of planets on the angles. This book offers a fun and interesting opportunity to look at famous people who have the same placements that we do and how those archetypal energies express themselves through their lives and work. Bartlett's good heart and intentions shine through in this project."  
 -Renn Butler author of The Archetypal Universe and co-author of Oh, Goddess: Love, Sex and Transcendence in Astrology

"This book is a gift not only to astrology, but also to the broader fields of consciousness studies and psychology. As a psychiatrist who is steeped in Sri Aurobindo's work on the evolution of consciousness, I especially appreciate Michael Bartlett's study of how the "energy" of planets can influence human personality and behavior. Too many people have been lead astray by the emotional dependency of trying to use astrology for predictive purposes, or the mental escape of astrology's abstruse theory. With this book, Michael Bartlett shows how we are really supposed to use astrology: to understand some of the occult forces that affect human psychology, and to use this knowledge to transform ourselves and the world. Using case studies from real life, including celebrities and cultural luminaries both past and present, he vividly illustrates how the consciousness of planets can affect us in very real and tangible ways. His work is organized, methodical, and succinct--all the marks of someone who really knows his stuff."  
 -Michael Miovic, MD Author of many essays on Sri Aurobindo's Integral Yoga Psychology

"Michael is a maverick! Leaning on an extensive body of research, Michael discovered convincing patterns that emerged from the lives of public figures with prominent aspects on the angular houses. Astrological Mavericks presents this innovative method that counseling astrologers can easily use in their practice which will empower their clients to express the best of this energy. Michael provided compelling stories of courage by amplifying their public mavericks' voices and how they're walking billboards of the planets that rule them. Readers will see themselves in this comprehensive research and now feel less alone. Thank you, Michael for your exceptional empathetic contribution to the field!"
