

# Global Battery Market 2019-2025 : Industry Analysis & Forecast

The Battery market was valued at 89200 Million US\$ in 2018 and is projected to reach 123700 Million US\$ by 2025, at a CAGR of 4.2% during the forecast period.

BANGALORE, KARNATAKA, INDIA, September 30, 2019 / EINPresswire.com/ -- The [Battery market](#) was valued at 89200 Million US\$ in 2018 and is projected to reach 123700 Million US\$ by 2025, at a CAGR of 4.2% during the forecast period.

In this study, 2018 has been considered as the base year and 2019 to 2025 as the forecast period to estimate the market size for Battery.

Battery is a collection of one or more cells whose chemical reactions create a flow of electrons in a circuit. All batteries are made up of three basic components: an anode (the '-' side), a cathode (the '+' side), and some kind of electrolyte (a substance that chemically reacts with the anode and cathode).

For industry structure analysis, the Battery industry is concentrated. These manufacturers are large multinational corporations. The top ten producers account for about 88% of the revenue market.

The Battery market was valued at 89200 Million US\$ in 2018 and is projected to reach 123700 Million US\$ by 2025, at a CAGR of 4.2% during the forecast period.”

## Regional Analysis :

Asia-Pacific occupied 45.20% of the sales market in 2017. It is followed by South America and Europe, which respectively account for around 19.23% and 18.43% of the global total industry. Other countries have a smaller amount of sales. For price trend analysis, the price is

downtrend from 2013-2017, and prices dropped by nearly half from 2013 to 2017.

For forecast, the global Battery revenue would keep decreasing with annual growth rate with -7%. We tend to believe that this industry will increase fluctuating, considering the price dropping trend.

This report presents the worldwide Battery market size (value, production and consumption), splits the breakdown (data status 2014-2019 and forecast to 2025), by manufacturers, region,

type and application.

This study also analyzes the market status, market share, growth rate, future trends, market drivers, opportunities and challenges, risks and entry barriers, sales channels, distributors and Porter's Five Forces Analysis.

#### Battery Breakdown Data by Type

1. Alkaline Battery
2. Acid Battery
3. Organic Battery

#### Battery Breakdown Data by Application

1. Home Use
2. Commercial Use

The following manufacturers are covered in this report:

Johnson Controls  
LG Chem  
Panasonic  
SAMSUNG  
GS Yuasa  
Exide  
EnerSys  
East Penn  
BYD  
ATL  
Duracell  
Energizer  
BAK  
Tianjin Lishen  
SONY  
GP Batteries  
Furukawa Battery  
AtlasBX  
C&D Technologies  
Maxell  
Nanfu Battery  
FUJIFILM  
Zhongyin (Ningbo) Battery

#### Battery Production by Region

1. United States
2. Europe
3. China
4. Japan
5. Other Regions

#### Battery Consumption by Region

North America

United States  
Canada  
Mexico  
Asia-Pacific  
China  
India  
Japan  
South Korea  
Australia  
Indonesia  
Malaysia  
Philippines  
Thailand  
Vietnam  
Europe  
Germany  
France  
UK  
Italy  
Russia  
Rest of Europe  
Central & South America  
Brazil  
Rest of South America  
Middle East & Africa  
GCC Countries  
Turkey  
Egypt  
South Africa  
Rest of Middle East & Africa

The study objectives are:

1. To analyze and research the global Battery status and future forecast—involving, production, revenue, consumption, historical and forecast.
2. To present the key Battery manufacturers, production, revenue, market share, and recent development.
3. To split the breakdown data by regions, type, manufacturers and applications.
4. To analyze the global and key regions market potential and advantage, opportunity and challenge, restraints and risks.
5. To identify significant trends, drivers, influence factors in global and regions.
6. To analyze competitive developments such as expansions, agreements, new product launches, and acquisitions in the market.

In this study, the years considered to estimate the market size of Battery :

History Year: 2014 - 2018

Base Year: 2018

Estimated Year: 2019

Forecast Year: 2019 - 2025

This report includes the estimation of market size for value (million USD) and volume (K Units). Both top-down and bottom-up approaches have been used to estimate and validate the market size of Battery market, to estimate the size of various other dependent submarkets in the overall market.

Key players in the market have been identified through secondary research, and their market shares have been determined through primary and secondary research. All percentage shares, splits, and breakdowns have been determined using secondary sources and verified primary sources.

For the data information by region, company, type and application, 2018 is considered as the base year. Whenever data information was unavailable for the base year, the prior year has been considered.

Reports covering specific subsets of Battery Market

### 1.Global Li-ion Battery Market

A lithium-ion battery or Li-ion battery is a type of rechargeable battery. Today lithium-ion batteries are commonly used for portable electronics and electric vehicles and are growing in popularity for military and aerospace applications.

The Li-ion Battery market was valued at xx Million US\$ in 2018 and is projected to reach xx Million US\$ by 2025, at a CAGR of xx% during the forecast period.

### 2.Global Rechargeable Battery Market

The rechargeable battery market has witnessed vehement competition and is anticipated to see a higher competitive intensity over the years forecast. To captivate a broader client base and produce enhanced goods on the market, organizations are continuously implementing several technology adoptions, study projects, innovations, and product developments.

Latin America and the Middle East and Africa's market growth is expected to expand but at a slow pace. Europe currently maintains the leading position in terms of rechargeable battery market share, followed by the US, but expected to grow at a stagnant growth pace.

### 3. Global Motorcycle Battery Market

Global Motorcycle Battery market size will increase to 8770 Million US\$ by 2025, from 7850 Million US\$ in 2018, at a CAGR of 1.4% during the forecast period. In this study, 2018 has been considered as the base year and 2019 to 2025 as the forecast period to estimate the market size for Motorcycle Battery.
