

# Global Electric Bus Market Analysis, Insights, Forecast to 2025

*The electric bus includes battery electric bus and hybrid bus. The battery electric bus occupies most part of the production.*

BANGALORE, KARNATAKA, INDIA,  
October 1, 2019 /EINPresswire.com/ --  
Global [Electric Bus Market](#) Overview :

An electric bus is a bus powered by electricity. An electric bus uses electric motors or traction motors for propulsion. An electric bus may be powered through a collector system by electricity from off-bus sources, or may be self-contained with a battery or generator to convert fuel to electricity. The electric bus includes battery electric bus and hybrid bus. The battery electric bus occupies most part of the production. The main production base is located in the China, so the China is the largest production region in the world. In the future, the battery will play an important role in the development of the electric bus; the policy also plays an import role. In the future, if any company wants to enter into the new energy vehicle industry, the battery will be the most important feature. This industry study presents the global Electric Bus market size, historical breakdown data (2014-2019) and forecast (2019-2025). The Electric Bus production, revenue

Electric Bus market size will reach 45900 million US\$ by 2025, from 9680 million US\$ in 2018, at a CAGR of 21.5% during the forecast period."

The following manufacturers are covered in this report:

- Yutong
- DFAC
- BYD
- King Long
- Zhong Tong
- Foton
- ANKAI
- Guangtong
- Nanjing Gold Dragon
- Volvo
- New Flyer
- Daimler
- Gillig

#### Electric Bus Breakdown Data by Type

- Battery Electric Bus
- Hybrid Bus

#### Electric Bus Breakdown Data by Application

- Public Transit
- Highway Transportation
- Other

#### Electric Bus Production by Region

- United States
- Europe
- China
- Japan
- South Korea
- India
- Other Regions

Inquire for Regional Reports @ <https://reports.valuates.com/request/regional/QYRE-Auto-3L367/Global Electric Bus Market Insights Forecast to 2025>

#### Electric Bus Consumption by Region

##### North America

- United States
- Canada
- Mexico

##### Asia-Pacific

- China
- India
- Japan
- South Korea
- Australia
- Indonesia
- Malaysia
- Philippines
- Thailand
- Vietnam

##### Europe

- Germany
- France
- UK
- Italy
- Russia
- Rest of Europe

##### Central & South America

- Brazil
- Rest of South America

##### Middle East & Africa

- GCC Countries
- Turkey

- Egypt
- South Africa
- Rest of Middle East & Africa

The study objectives are:

- To analyze and research the global Electric Bus status and future forecast—involving, production, revenue, consumption, historical and forecast.
- To present the key Electric Bus manufacturers, production, revenue, market share, SWOT analysis and development plans in next few years.
- To segment the breakdown data by regions, type, manufacturers and applications.
- To analyze the global and key regions market potential and advantage, opportunity and challenge, restraints and risks.
- To identify significant trends, drivers, influence factors in global and regions.
- To strategically analyze each submarket with respect to individual growth trend and their contribution to the market.
- To analyze competitive developments such as expansions, agreements, new product launches, and acquisitions in the market.

In this study, the years considered to estimate the market size of Electric Bus :

History Year: 2014 - 2018

Base Year: 2018

Estimated Year: 2019

Forecast Year: 2019 - 2025

This report includes the estimation of market size for value (million USD) and volume (Units). Both top-down and bottom-up approaches have been used to estimate and validate the market size of Electric Bus market, to estimate the size of various other dependent submarkets in the overall market. Key players in the market have been identified through secondary research, and their market shares have been determined through primary and secondary research. All percentage shares, splits, and breakdowns have been determined using secondary sources and verified primary sources.

For the data information by region, company, type and application, 2018 is considered as the base year. Whenever data information was unavailable for the base year, the prior year has been considered.

Reports covering specific subsets of Global Electric Bus Market

Electric Bus Market Report

The income from the electric bus industry is motivated by different variables. As such, nations are actively pushing for alternative sources of energy. Different public laws have been enforcing clean fuel acts in the latest years. The move aims at minimizing air pollution that has negative effects on humans. As a result, countries are investing in the worldwide electric bus industry to reduce the dangers of air pollution.

Electric Bus Charging Station Market

This report focuses on Electric Bus Charging Station volume and value at global level, regional level and company level. From a global perspective, this report represents overall Electric Bus Charging Station market size by analyzing historical data and future prospect. Regionally, this report focuses on several key regions: North America, Europe, China and Japan.
