

Cable Matters introduces Triple-Monitor MST Hub Featuring DisplayPort™ 1.4 Technology

Cable Matters®, a leading supplier of connectivity solutions, announced two DisplayPort 1.4 MST Hubs with input of Mini DisplayPort, and USB-C, respectively.

SOUTHBOROUGH, MA, UNITED STATES,
October 2, 2019 /EINPresswire.com/ --
Southborough, Massachusetts,
October 2, 2019

Cable Matters®, an industry-leading supplier of connectivity solutions, announced new additions to their line of custom-designed video products. The Cable Matters 3-Port Mini DisplayPort MST Multi-Monitor Hub and the Cable Matters 3-Port USB-C™ MST Multi-Monitor Hub add up to three displays to a laptop, tablet, or desktop computers with Mini DisplayPort or USB-C.

Drive Multiple Displays over DisplayPort

Stream independent video displays from a Mini DisplayPort or USB-C port

that support the DisplayPort 1.2 or 1.4 standard. Multi-Stream Transport (MST) is supported over DisplayPort 1.2 and 1.4 protocols and allows for connecting multiple monitors from a computer with Windows®, Linux, or Chrome OS®. Computers supporting DisplayPort 1.2 can have a maximum of three 1080p monitors while DisplayPort 1.4 bandwidth allows for a single 8K, dual 4K 60Hz, or triple 4K 30Hz displays.

“

The Cable Matters DisplayPort MST Hubs offer convenient choices for computer users. Cable Matters strives to offer a wide-range of video products to serve the home, office and gaming community.”

Jeff Jiang, President of Cable Matters Inc.

Expand Your Workspace to the Max over USB-C with added Power

Increase your multi-tasking productivity with a different application on three separate displays from a computer with Windows, Linux or Chrome OS®. An integrated USB-C port on the hub offers 100-watt pass-through charging to charge a laptop while in use. The optional power port on the hub also boosts the signal for low powered Mini DisplayPort.

Built for when Detail Matters

DisplayPort 1.4's 32.4 Gbps bandwidth also packs support for High Dynamic Range (HDR), providing 10 bit color depth and dynamic color mapping. The newest 8K HDR monitors offer

Cable Matters

Cable Matters DisplayPort 1.4 MST Hub with Mini DisplayPort Input

extreme detail for graphic designers, photographers, and producers.

Desktop Mounting Option

A small magnet in the body of both MST Video Hubs offers a convenient mounting option on the side of a computer tower or other metal surface. A 12 inch cable tail prevents strain on your computer's USB-C port or Mini DisplayPort. Reduce clutter on your desktop for a tidy workstation.

Performance Video for All

"The Cable Matters MST Multi-Monitor Hubs offer convenient choices for computer users. Cable Matters strives to offer a wide-range of video products to serve the home, office and gaming community." - Jeff Jiang, President of Cable Matters
