

Better Branches Technology Releases Better Lobby Online Queuing Module

New module will provide convenient member service and boost branch efficiency

PHOENIX, AZ, UNITED STATES, October 3, 2019 /EINPresswire.com/ -- [Better Branches Technology LLC](#), a provider of branch visitor queuing and appointment handling software for credit unions, announced the release of a new module for their Credit Union industry-leading [Better Lobby visitor management](#) system: [Better Lobby Online Queuing](#) Module. The new software module enables branch visitors to reduce their wait time in the branch lobby by joining the service queue remotely - using their mobile phone, desk-top computer or (optionally) the CU's banking app - prior to arriving at the branch.

Upon arrival at the branch the visitor checks in to finalize their position in the queue. Credit unions that deploy the Better Lobby Online Queuing

“

Better Lobby Online Queuing Module allows visitors to use their “wait time” for activities outside the branch running errands, grabbing a cup of coffee, or making a purchase nearby the branch.”

Module will find that it will help them to manage and improve the member experience, while seamlessly coordinating their walk-in and appointment traffic. Members will appreciate the ability to reduce their wait time, while credit union branch managers will be able gain insights into walk-in volume shortly before it occurs allowing for better utilization of staff.

Rick Poulton, President of Better Branches Technology, states that “our new Better Lobby Online Queuing Module allows branch visitors to use their “wait time” for activities outside the branch, such as travel to the branch, running

quick errands, grabbing a cup of coffee, or making a purchase nearby the branch.” He adds that

“we are pleased to provide this new, brand enhancing, technology to credit unions. We believe that we are the first to provide this capability in the CU FinTech market.”
