

Four Interactive Sessions to Take Place at the 2019 Respiratory Drug Delivery Conference

SMi Reports: Four interactive sessions will take place at the inaugural Respiratory Drug Delivery conference to be held on the 6th December in London.

LONDON, UNITED KINGDOM , October 4, 2019 /EINPresswire.com/ -- SMi is pleased to provide attendees with the opportunity to take part in over five hours of interactive sessions as part of the two day conference. The interactive sessions will focus on novel routes of drug distribution and long term solutions to dealing with the needs of patients.

The inaugural conference is part of SMi's newly branded Asthma and [COPD](#) series and will bring together clinical researchers, respiratory drug manufacturers and solution providers to present and discuss the latest developments in respiratory [drug delivery](#).

Interactive Session 1: "Novel Approaches to characterise Aerosol Dynamics"

Key topics:

- Introductory overview and case studies highlighting the reality of different characterisation approaches
- Assessing Drug Delivery methods, discussing mechanisms and dynamic breakup
- Reviewing the effects of the lung environment, including heat and relative humidity and why do dynamics matter in drug delivery?

Dr David Lewis, Aerosol Science Director Drug Delivery Technologies, Chiesi

Interactive Session 2: "Digital Enablement: could remote photoplethysmography be key to patient monitoring compliance?"

Key topics:

- Assessing the ability for remote photoplethysmographic (rPPG) technologies to solve the challenges of compliance in patient self-monitoring

The poster features a blue-tinted anatomical illustration of a human torso, focusing on the respiratory system. The trachea and bronchial tree are highlighted in a vibrant red, contrasting with the blue background of the lungs and surrounding tissues. A red rectangular box on the left side of the chest contains the text "5 - 6 DEC 2019" in white. At the top, the text "SMi's launch of..." is followed by "Respiratory Drug Delivery" in a large, bold, red font. Below this, "Cophthorne Tara Hotel, London, UK" is written in a smaller white font. The SMi logo, with the tagline "LINKING BUSINESS and INFORMATION", is in the top right corner. At the bottom, the website "www.respiratorydrugdelivery.com" is displayed in white, followed by the event title "Respiratory Drug Delivery2019" in a bold white font.

SMi's launch of...
Respiratory Drug Delivery
Cophthorne Tara Hotel, London, UK

5 - 6
DEC
2019

www.respiratorydrugdelivery.com

Respiratory Drug Delivery2019

- Reviewing the value of such technologies in predicting and preventing respiratory exacerbations
- Considering the barriers to adoption of mass rPPG monitoring

Laurence Pearce, Founder and CEO, Xim Ltd.

Interactive Session 3: "Respiratory drug delivery: what may the future hold?"

Key Topics:

- Setting the scene for how intelligent drug delivery can transform the field of respiration and assessing the emerging technologies landscape for improved respiratory drug delivery
- Discussion on benefits and challenges of nasal route for drug administration

Mayur Patel, Leading innovative medical and combination product development, PA Consulting

Interactive Session 4: Device Discovery: How relevant is a device to the patient

Key topics:

- Introduction to device discovery
- Open discussion on real world studies and feedback on hurdles
- Reviewing the operational challenges of RWS
- Assessing what the data challenges are once a study is up and running

Abid Raza, Respiratory Medicine, Independent Medical Expert

Registrations for the conference can be made online at www.respiratorydrugdelivery.com/einpr6
Register by the 31st October to save £100 off the conference price.

Respiratory Drug Delivery
5th – 6th December 2019
