For his efforts, Woodcock has been awarded as an Air System Cleaning Specialist.

The Air System Cleaning Specialist designation is a distinguished honor in the HVAC industry. It's a clear indicator of the knowledge and experience of an HVAC technician. The National Air Duct Cleaners Association is the top organization for representing the commercial and HVAC cleaning industry. Focused on improving business throughout the country, the NADCA relies heavily on its examinations and learning tools to assist technicians in their day to day jobs. So being a certified technician means more than just knowing the work, but also doing it well and with a good attitude.

As a leading company for air duct sealing in Pensacola,

Doodlebuggers always wants to keep methods of improvement on deck. The NADCA examination has allowed at least one Doodlebuggers worker to get better at their craft. Hopefully, this cycle will continue in the future.

"No matter whatever training it takes we'll do it to ensure we're the best we can be," Tom LaMontagne said. "It's the only way to bring the best business we can to Pensacola."
