

K2 ANNOUNCES WINNERS OF THE THIRD ANNUAL K2 MIDDLE EAST EXCELLENCE AWARDS

The awards celebrate the outstanding achievements of K2 customers in the Middle East who have delivered world-class automation solutions on the K2 platform.

DUBAI, UNITED ARAB EMIRATES, October 7, 2019 /EINPresswire.com/ -- The 3rd Annual K2 Middle East Excellence Awards recognize the outstanding achievements of organizations that have delivered world-class automation solutions on the K2 platform. The awards are a prestigious honor that serve to recognize the leaders in digital process automation in the Middle East.

"We were thrilled to receive so many exceptional nominations from our customers across the region and were impressed with the ingenuity and team effort that have gone into each unique success story," said Mike Wyatt, Customer Success Manager for K2 Middle East. "It was not an easy task to choose a winner from so many deserving achievements. In the end, final decisions were made based on a number of factors including approach, speed of development, functionality, innovation, scale, complexity and overall business impact."

"Digital process automation is evolving and so is the way our customers are intelligently transforming their organizations with the K2 platform. More direct engagement with business users and customers, leadership visibility, and opportunities for new graduates to learn quickly have been stated by a number of customers as contributing factors to success," explains Amy Romkey, Regional Sales Director, K2 Middle East. "The scale and variety of applications our customers have delivered in a short period of time, continue to surprise me. The winners should be proud of their achievements."

Yousef Eqtait, Director of Services for K2 Middle East and Chair of the judging panel, adds: "For the third year in a row, we have received impressive success stories from customers - stories worth telling and celebrating. This proves that combining great software with visionary leadership can put organizations at the forefront of digital transformation."

K2 | Digital Process Automation

The award winners will be announced at GITEX Technology Week in Dubai (October 06-10th) and each winning organization will be recognized with a private awards presentation by the K2 Middle East team at a later date.
