Regional Analysis

The regional splits of the overall market and its sub-segments based on the percentage adoption

or utilization of the given product in the respective region or country covers: North America, United States, Canada, Mexico, Asia-Pacific, China, India, Japan, South Korea, Australia, Indonesia, Singapore, Malaysia, Philippines, Thailand, Vietnam, Europe, Germany, France, UK, Italy, Spain, Russia, Central & South America, Brazil, Rest of Central & South America, Middle East & Africa, GCC Countries, Turkey, Egypt, and South Africa.

The Asia Pacific region is expected to dominate the global market. China is a leading manufacturer of OTR vehicles with maximum sales. India, Japan, Thailand, and Malaysia are also experiencing a boom in the sales of OTR tires and vehicles. In terms of market dominance, the Asia Pacific region is followed by North America and Europe.

Conclusion

The market experienced a downturn in the past few years, majorly due to challenges in the coal mining segment. Increasing costs of coal mining due to the introduction of various government regulations, hinders the growth of the off-the-road tire market. The decline in the prices of crude oil has led to a weak construction and mining activities. This slowdown in the growth of the construction and mining sector is also expected to restrict the growth of the off-the-road tire market.

However, the national governments and several regional organizations are focusing on magnifying the benefits from the mining sector, which is resulting in increased mining activities globally. Despite the hindrances, the global off-the-road tire market is projected to grow at the CAGR of ~6%.
