

Global Diagnostic Medical Imaging Market Analysis with Top Key Manufacturers, Applications, Trends and Forecasts by 2025

Global Diagnostic Medical Imaging Market is compelled by the AI-powered medical imaging technology and the Internet of things

NOIDA, UTTAR PRADESH, INDIA, October 10, 2019 /EINPresswire.com/ -- BlueWeave Consulting reviews that, [Global Diagnostic Medical Imaging Market](https://www.blueweaveconsulting.com/global-diagnostic-medical-imaging-market-bwc19261#ReportSample/) is anticipated to witness a substantial growth rate during the forecast period. Technological innovations and increasing R & D activities in imaging systems are boosting the growth of the market.

In medical imaging field, latest technologies include 3-D viewing, medical collaboration and easy picture archiving, communication system (PACS) connectivity, big data, and IoT, which allows access to radiology reports and referral studies.

Diagnostic imaging also known as medical imaging refers to the technique of generating visual representations of the internal body to diagnose a patient.

Competitive Landscape

- Siemens Healthineers
- GE Healthcare
- Koninklijke Philips N.V.
- Shimadzu Corporation
- Agfa-GevaertN.V.
- Canon Medical Systems Corporation
- Hitachi Ltd.
- Hologic, Inc.
- Samsung Healthcare
- Mindray Medical International
- EsaoteS.p.A
- Other Prominent Players

Among Product type, CT scanners are dominating the market and expected to occupy the highest market share during the forecast period.

Computed Tomography (CT) Scanners is the leading segment. It provides helps to reduce the requirement of exploratory surgeries to save the additional expenditure. Cultivating cancer diagnosis and treatment, plummeting length of hospitalizations, guiding treatment of common illnesses such as injury, cardiac disease, and stroke are factors driving the growth of the market.

Among application, Cardiovascular and Thoracic segment is the fastest-growing market segment

during the forecast period.

Cardiovascular and Thoracic segment is showcasing the substantial growth rate during the forecast period. Diagnostic imaging systems permit assessment of the structures and function of the heart and other main body parts without risks of contact to radiation usually allied with traditional procedures.

Among End User, Hospital segment is the prominent market segment over the forecast period

Hospital is the leading segment and growing at a significant growth rate. The increasing rate of chronic disease patients across the globe and expenditure done by government on healthcare sector is boosting the growth of the market. The rising number of hospitals in developing nations and advanced diagnostic imaging technology is accelerating the progress of the market.

The Asia Pacific is the fastest-growing region for the global Diagnostic Medical Imaging market during the forecast period.

Asia-Pacific is showcasing the momentous growth due to rising R&D activities and emerging medical tourism. Rise in the application of diagnostics/Medical Imaging devices in various industries such as hospitals, and clinics owing to increasing healthcare expenditure and rising awareness regarding early disease detection will positively global economy. Additionally, growing number of diagnostic imaging centers coupled with the rising in per capita income and surge in disposable incomes will Diagnostics/Medical Imaging Market globally.

By Product Type

- Computed Tomography (CT) Scanners
- X-ray Imaging Systems
- MRI Systems
- Ultrasound Imaging Systems
- Nuclear Imaging Systems
- Mammography Systems

By Application

- Neuronal Spine
- Orthopedics and Musculoskeletal
- Cardiovascular and Thoracic
- General Imaging

By End-user

- Hospitals
- Imaging Centers

By Region:

- North America
- Europe
- Asia Pacific (APAC)
- South America
- Middle East & Africa

About BlueWeave Consulting & Research Pvt Ltd. (BWC)

BlueWeave Consulting provides a full scope of business intelligence solution for solving your toughest challenges. BWC is an emerging global expert & pioneer in the market research and provision of exclusive market INTEL. We optimize your decision making by equipping your industry with an accurate & better market research according to your industry demands through our professionally designed qualitative & quantitative research methods. Our trendy & efficient sample collection methods, integrated data solutions as well as methodologies certainly make us a better partner that you can rely on. With collective experience in the varied fields of retail, market research and reporting, we provide the business insight and business practices that would give the required impetus for your company's growth.
