Scaffolding, also called scaffold or staging is a temporary structure used to support a work crew and materials to aid in the construction, maintenance and repair of buildings, bridges and all other man-made structures. Scaffolds are widely used on site to get access to heights and areas that would be otherwise hard to get to.

#### Demand Scenario

The global scaffolding market was USD 20.63 billion in 2018 and is estimated to reach USD 29.32 billion by 2025 at a CAGR of 5.15% during the forecast period

#### Growth by Region

North America region will be the fastest growing market during the forecasted period. After North America, Asia-Pacific, Europe, Middle East & Africa and Latin America are likely to follow.

#### Drivers vs. Constraints

Factors leading to the growth of market are increasing demand from the construction industry with high rise commercial buildings and improvement in the residential infrastructure. Rise in the living standard of people in the developing countries which lead to the new constructions is also expected to drive the industry.

#### Industry Trends and Updates

The market is fragmented with the companies striving for innovative products to retain their presence and market share
