Video on Demand (VoD) refers to the technology wherein subscribers can view programs in real

time or even download them for viewing in later. Consumers can now decide and pay for the content they wish to watch whether it is movies, music, news, sports, etc. It gives the viewers the liberty to access content on various devices irrespective of time and place.

#### Demand Scenario

The global video on demand market was USD 43.28 billion USD in 2018 and is estimated to reach USD 77.31 billion by 2025 at a CAGR of 8.64% during the forecast period

Growth by Region The concept of VOD was first commercialized in developed regions of North America and Europe which makes them the most lucrative regions in this market. United States is expected to continue its growth momentum leading to the increasing use of latest technology, switch to digital media and presence of market players such as Netflix, Hulu, Roku, Apple TV. Asia Pacific, a highly opportune region for VOD market which is posed to have an above average CAGR during the forecast period owing to increasing disposable income of urban population and changing lifestyles.

#### Drivers vs Constraints

Some of the key factors that drive the growth of the market include enhanced customer viewing experience, popularity of binge watching, flexibilities offered by video on demand such as high quality content independent of time bondage and the continuous integration of various contents across different devices.
