

Gas-to-liquid (GTL) Market 2019, Global Industry Analysis, Size, Share, Growth, Trends and Forecast - 2024

A New Market Study, titled "Gas-to-liquid (GTL) Market Upcoming Trends, Growth Drivers and Challenges" has been featured on WiseGuyReports.

PUNE, MARKETERSMEDIA, INDIA, October 17, 2019 /EINPresswire.com/ -- Summary

A New Market Study, titled "Gas-to-liquid (GTL) Market Upcoming Trends, Growth Drivers and Challenges" has been featured on WiseGuyReports.

This report provides in depth study of "Gas-to-liquid (GTL) Market" using SWOT analysis i.e. Strength, Weakness, Opportunities and Threat to the organization. The Gas-to-liquid (GTL) Market report also provides an in-depth survey of key players in the market which is based on the various objectives of an organization such as profiling, the product outline, the quantity of production, required raw material, and the financial health of the organization.

Overview

The gas to liquid is considered a refinery process through which natural gases and other gaseous hydrocarbons are converted into hydrocarbons of longer chain such as diesel-fuel or gasoline. The global gas to liquid market is set to observe the substantial growth rate in the years to come. Though, the market has robust potential in the present period, yet, it does not achieve the expected result. The global gas to liquid market has been segmented into two forms such as GTL naphtha and GTL diesel. As per the market research, the GTL naphtha is the second largest market among entire GTL market. The segment of GTL diesel is dominating the market because its quality is far better than the usual refinery diesel produced from the crude oil. The fuels of GTL diesel produced by the process of Fischer-Tropsch in general have zero sulfur products and very acme cetane number. There is one advantage of using the GTL diesel is that it produces zero NO emissions. It is also used for alternate feedstock for the chemical manufacturing sector.

As per the report, the usage of GTL has been increased as there is some stringent law over the protection of the environment. To promote the healthy and safe environment, it is always advisable to use the GTL. In almost every country, the usage of GTL products has been increased leaps and bounds in manufacturing as well as the automobile industry. This alternative energy provider has been encouraged to use by the government and other leader of other industry leader because growing multiple industry as well as decorating the reserves of natural gas across the world. There are many companies which are producing green and synthetic fuels by availing the GTL services. The services of GTL will boost the sector like technology directly and indirectly in the coming years across the world.

The market size of Gas to Liquid is at \$8.4 billion in 2014 and it is expected to reach the double figure of it in the coming years. The annual growth rate of the market is 6.5%.

This market report offers a comprehensive analysis of the global Gas-to-liquid (GTL) market. This report focused on Gas-to-liquid (GTL) market past and present growth globally. Global research on Global Gas-to-liquid (GTL) Industry presents a market overview, product details, classification, market concentration, and maturity study. The market value and growth rate from 2019-2025 along with industry size estimates are explained.

Key manufacturers are included based on company profile, sales data and product specifications etc.:

Shell
ORYX GTL
PetroSA
OLTIN YO'L GTL
Chevron

Major applications as follows:

Fuel Oil
Lubricating Oil
Process Oil
Others

Major Type as follows:

GTL Diesel
GTL Naphtha
GTL Others

Regional market size, production data and export & import:

Asia-Pacific
North America
Europe
South America
Middle East & Africa

Major Key Points in Table of Content

1 Global Market Overview

2 Regional Market

3 Key Manufacturers

4 Major Application

5 Market by Type

6 Price Overview

7 Conclusion Fig Global Gas-to-liquid (GTL) Market Size and CAGR 2013-2018 (Million USD)

Report Summary:

In the first section, the Global Gas-to-liquid (GTL) Market report presents industry overview, definition, and scope. The second part briefs about the Global Gas-to-liquid (GTL) industry

bifurcation by Type, Application and Geographical regions. The top industry players, revenue analysis, and sales margin are explained. The production and consumption scenario is specified.

The SWOT analysis by players, the growth rate for each type, application, and the region is covered. A 5-year forecast Global Gas-to-liquid (GTL) industry perspective will lead to profitable business plans and informed moves. Towards, the end data sources, research methodology, and findings are offered.
