

# Kryptoin: A New Hope for a Bitcoin ETF Emerges

*Kryptoin Investment Advisors LLC filed a Registration Statement with the SEC on October 15 for their Kryptoin Bitcoin ETF Trust under the Securities Act of 1933*

MOUNTAIN VIEW, CA, UNITED STATES, October 23, 2019 /EINPresswire.com/ -- [Kryptoin Investment Advisors LLC](#) filed a [registration statement](#) with the SEC on October 15, 2019 for their Kryptoin [Bitcoin ETF](#) Trust under the Securities Act of 1933.

This Registration comes on the heels of other filings which have been unsuccessful due to issues concerning manipulation in the markets. More specifically it was the “lack of the listing exchange from meeting its obligations under Exchange Act Section 6(b)(5) to establish that the underlying commodity market was inherently resistant to fraud and manipulation with the use of surveillance-sharing agreements with a regulated market of significant size relating to the underlying assets.”

Despite the cloudy outlook that the recent rejection has placed on the industry, Kryptoin believes that their proposal can satisfy the deficiencies of the previous applications and is working with the listing exchange to address these concerns and aims to have their 19b-4 filing in the coming weeks.

A registration statement relating to these securities has been filed with the Securities and Exchange Commission but has not yet become effective. These securities may not be sold nor may offers to buy be accepted prior to the time the registration statement becomes effective. This press release shall not constitute an offer to sell or a solicitation of an offer to buy, nor shall there be any offer or sale of, these securities in any state or jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of such state or jurisdiction.”

The proposed offering will be made only by means of a prospectus. Copies of the preliminary prospectus relating to the proposed offering may be obtained, when available, from
