

Global Personal Air Sampling Pump Market: key Vendors, Trends, Analysis, Segmentation, Forecast to 2019-2025

A new market study, titled "2019 Global and Regional Personal Air Sampling Pump Market Research Report Forecast 2025", has been featured on WiseGuyReports.

PUNE, MAHARASHTRA, INDIA, October 21, 2019 /EINPresswire.com/ -- Report Description:

As stated in a report, the global personal air sampling pump market is expected to increase in a profound manner. Multiple factors are anticipated to influence the market growth. The market growth will be primarily driven by the increasing industrial and environmental need to use these pumps at various different locations.

A personal air sampling pump is basically an equipment which is used to collect a representative air sample. Due to their ease of use and versatility, these sampling pumps are mostly used at landfill sites for collecting samples from environmental monitoring wells and at the facilities or factories where various different industrial hygiene studies such as mold assessment and asbestos assessment are being conducted.

Also personal air sampling pump play an important role in measuring exposure to harmful dust, particulates and gases, which in turn is expected to drive its market size globally. Mostly used in construction, industrial and emergency applications, these pumps assure safety of the workers and are being designed as per the regulatory standards.

Competitive Landscape

The tough competition among the leading players is likely to bring favourable outcome in the market of personal air sampling pump across the world. On the other hand, partnerships and agreements, and mergers and acquisitions among eminent companies operating in this market is also expected to leave a positive impact on the market.

Industry News

Casella, a waste management company based in the United States, recently won Occupational Health and Safety's 2019 'New Product of the Year Award' for its new, VAPex Personal Low Flow Sampling Pump.

Regionally, this report categorizes the production, apparent consumption, export and import of Personal Air Sampling Pump in North America, Europe, China, Japan, Southeast Asia and India. For each manufacturer covered, this report analyzes their Personal Air Sampling Pump manufacturing sites, capacity, production, ex-factory price, revenue and market share in global market.

The following manufacturers are covered:

SIBATA
SKC
Sensidyne
GL Sciences
AP BUCK
GASTEC CORPORATION
Zefon
AC-Sperhi
Casella
Delin
Perkinelmer

Segment by Regions

North America
Europe
China
Japan
Southeast Asia
India

Segment by Type

High Flow
Low Flow

Segment by Application

Industrial Manufacturing
Health Industry
Environment Industry
Scientific Research
Others
