

Root Engineers Brings Engineering Expertise to New Jersey Cannabis Industry

Professional engineers specializing in the cannabis industry licensed to offer services in NJ

BEND, OREGON, USA, October 21, 2019 /EINPresswire.com/ -- [Root Engineers](#), a professional engineering firm specializing in the cannabis industry, is pleased to announce the approval of its license to practice in the state of New Jersey. The license was granted to Laura Breit, PE, managing principal of Root Engineers by the New Jersey Board of Professional Engineers and Land Surveyors.

Root Engineers is a leading provider of engineering, design and consulting services for cannabis cultivation and processing facilities across the country. The Root Engineers team provides superior engineering solutions, including mechanical, electrical, plumbing and process engineering.

“

Our goal is to help new facilities optimize production, maximize bottom line profits, and provide the operational infrastructure to help our clients grow their businesses.”

Laura Breit, PE

“We are excited to continue to expand our services to cannabis operations nationwide,” said Laura Breit, managing principal of Root Engineers. “Our experienced team of licensed professional engineers has completed more than 100 cannabis facility design projects to meet the unique needs of each operation. Our goal is to help new facilities optimize production, maximize bottom line profits, and provide the operational infrastructure to help our clients grow their businesses.”
