Shipping containers are the containers that are used in transport and carriage of goods without the need for unloading and reloading at intermediate points. These containers are used in transporting goods via both, land and sea borne modes of transport, which may involve use of ships, rails and trucks. The Global Shipping Containers Market was worth 9.15 Billion USD in 2018 and is estimated to reach 12.33 Billion USD by 2025 at a CAGR of 4.35% during the forecast period

Growth by Region

The Europe region is expected to dominate the Global Shipping Containers Market in the forecast period followed by Asia-Pacific region and North America region with next highest market shares.

Drivers vs. Constraints

The growing demand for superior and highly efficient containers, rising sales of specialized containers, slow and steady development in seaborne trade, and rising containerization are the factors which drives the Global Shipping Containers Market.

Industry Structure and Updates

March 2018 - Carrier Transcold and Singamas introduce PrimeLINE ONE Refrigerated Container
