### Key Players

The major players in the global scaffolding market are ULMA Construction, MJ-Gerüst GmbH, Waco Kwikform Limited, Stepup Scaffold, LLC, Wilhelm Layher Holding GmbH & Co. KG, Safway Group Holding LLC, PERI GmbH, Altrad Group, ADTO Industrial Group Co., Ltd., Cangzhou Weisitai Scaffolding Co.Ltd., Instant Upright, Tianjin Wellmade Scaffold Co. Ltd., Changli XMWY Formwork Scaffolding Co., Ltd. Beijing Kangde, Youying Group Rapid Scaffolding Engineering Co. Ltd, Rizhao Fenghua Scaffolding Co. Ltd. and KHK Scaffolding & Formwork LLC, Tianjin Gowe Industrial Co. Ltd., Entrepose Echafaudages Itsen Construction Equipment (Guangzhou) Co. Ltd., among others.

Continuous request from the development business due to skyscraper buildings, enhancement in private framework and rapid growing technology are some of the factors that are likely to propel the market size of scaffolding market in the coming years. Development in the residential infrastructure along with new construction activities such as high-speed rail project in Japan and Trans-Sumatra Toll Road in Indonesia will further boost the demand of scaffolding over the forthcoming years.

In addition, maintenance activities involving cleaning, repairing, painting jobs, electrical installations etc will drive demand for supported scaffoldings. However, fluctuating prices of the raw materials along with a slowdown in the economic growth might hinder the global market size of Scaffolding in the coming years.

## Market Segmentation

The market of global scaffolding market has been segregated into type, material and application. Based on the type, the market has been divided into Supported Scaffolding, Suspended Scaffolding and Rolling Scaffolding. Based on the material, the market has been segmented into Steel, Aluminum, Wood and Others. On the basis of its application, the market is paired into Construction Industry, Electrical Maintenance, Temporary Stage and others.

## Detailed Regional Analysis

The regional analysis will throw light at the development in the global scaffolding as per the regions. The global market has been analysed across the United States, Europe, India, Japan, China, and Southeast Asia. The APAC region will remain at the forefront during the coming period, with countries like Japan, India and China witnessing the maximum growth. The factors that are fuelling the market growth include expansion in the construction industry and growing government initiatives towards urbanizing and industrialization. Also, scaffolding market is getting influenced by many factors which include growing foreign direct investment in the construction area of the Asia Pacific region in addition to supportive government policies. The North American scaffolding market is experienced to witness favourable growth post prolonged term of stagnation and this is specially seen in the residential segment where flat hourly wages, slack labor markets and household deleveraging have raised new home construction demand. Meanwhile, the Middle East and Africa and Latin America regions will see huge growth potential in the future which is due to urbanization and constant economic growth in these regions.

## Competitive Landscape

Latest trends reflect that the construction companies are looking for one-stop solution to all equipment requirements which has resulted in the consolidation in the construction rental industry. The key players are planning to expand product offerings and increase their geographical presence and regarding the same are expected to adopt various different marketing strategies to make the most of growth opportunities in the coming years.
