

Hengtong Helps to Build a Global Marine Center City

SHANGHAI CITY, 中国, October 23, 2019 /EINPresswire.com/ -- From October 14 to 17, the 2019 China Marine Economy Expo known as "[the first marine exhibition of China](#)", was held in Shenzhen, China. The Expo will comprehensively display the latest the most cutting-edge technologies and core equipment in the domestic and global marine fields, discuss the development trend of cutting-edge technologies and industries together.

As a global information and energy network service provider, [Hengtong](#) has demonstrated marine energy interconnection system solutions, marine engineering system solutions, marine observation system solutions in various forms such as physical objects, models, sand tables, videos, etc.

At the exhibition site, Hengtong shared the latest technology in the marine industry and the idea for industrial development in the future with all government leading experts. Hengtong focuses on the development of high-end marine equipment, marine information services and other emerging industries, and contributes to the construction of smart ocean, which will be beneficial for the construction of global communication and energy network.

According to report, the presence of the Expo in Shenzhen will help Shenzhen take the lead in implementing the national strategy of maritime power, seize the major opportunity of planning and construction of Guangdong, Hong Kong and Macao Dawan District and accelerate the construction of a global marine center city.
