

# LEADING LUXURY VILLA RENTAL COMPANY LAUNCHES ECO-FRIENDLY VILLAS AND LONG-TERM SUSTAINABILITY PROGRAMME

*Eco-Friendly Villas the way of the future according to Exceptional Villas*

NEW YORK, UNITED STATES, IRELAND, October 25, 2019 /EINPresswire.com/ -- With an increase in climate temperature of 1.62 degrees Fahrenheit or almost one degree Celsius and the subsequent impact of that on our environment, weather, seas and glaciers, it has never been more important for every single person on our planet to do what they can to reduce their carbon and ecological footprint. With that mind, Exceptional Villas, who are widely considered to be the worlds most trusted villa rental company have launched a new eco-friendly portfolio that includes villas, private islands and vacation rentals all over the world.

Costa Rica Villa Rentals

The aim is to encourage both owners and clients to think about the environment and how they can make a difference. The global villa rental company are 100% committed to raising awareness of the importance of being eco-friendly and staying in [Eco Friendly Villas](#) while travelling.

“

We are delighted with the response and interest we have received on our new eco-friendly portfolio as well as the support from owners in adopting environmental improvements”

*Alexandra Baradi*

There are two important parts of this journey. It starts with encouraging as many villa and vacation rental property owners to adopt sustainability goals within their existing properties or when developing new properties. And to ensure these objectives are in line with the United Nations 17 sustainable development goals (SDGs) to transform the world. These include such items as responsible consumption and production, climate action and life below water. The second part of the campaign is to encourage as

many of their discerning clients to book the properties that have made an exceptional effort in providing an environmentally friendly product.

Exceptional Villas have also issued guidelines, tips and advice on how clients can have the most environmentally friendly vacation possible. These guidelines include tips such as

1) Only using reef-safe sunscreens, shampoos and body wash while on vacation. Reef safe means that these products are

not toxic to the coral reef ecosystem or underwater life.

2) Using natural chemical-free mosquito repellent.

3) Switching off air-conditioning unless necessary and especially closing doors to the outside when the air-conditioning system is in use.

4) Choosing eco-friendly villas and vacation rentals

5) Visiting Zero Kilometer Restaurants where all the food is grown and produced in the gardens or farm of the

restaurant. Equally Farm to Table restaurants is a great choice.

6) Choosing countries that are high up on the Environment Performance Index (EPI) such as Switzerland and Costa Rica.

7) Spending more time doing non-motorized water sports such as scuba diving, snorkelling and sailing

8) Supporting businesses, restaurants and bars that already are committed to sustainability.
