#### Industry News:

Severe government regulations to ensure fuel emission standards and advances in technology have led to the increasing adoption of light-weighting cars. Car manufacturers across the globe have shifted their focus towards manufacturing light-weight vehicles with the use of carbon-nano composite, a popular and efficient type of weight-reduction technology.

Numerous trends are expected to influence the automotive industry in the upcoming years, ranging from shared cars to digital marketing and electric vehicles. All these trends will impact the operations of the automobile sector, and companies in the automotive industry are expected to strategic their activities accordingly.
