

Wikisoft Corp (WSFT) Plans to Apply for Uplisting to OTC QB

SAN FRANCISCO, UNITED STATES, October 24, 2019 /EINPresswire.com/ -- October 24, 2019 - Wikisoft Corp. ([OTC:WSFT](#)) ("the Company") today announces that it will apply for uplisting to the OTC QB Venture Market.

Uplisting from the Pink Sheets will provide greater transparency to existing and prospective shareholders while growing our exposure to a much broader investing community"

"Trading on the OTC QB will be an important step for Wikisoft and will expand our financial communication program. Uplisting from the Pink Sheets will provide greater transparency to existing and prospective shareholders while growing our exposure to a much broader investing community" stated Rasmus Refer, Director, Wikisoft Corp.

The OTC QB is considered by the Securities and Exchange Commission (SEC) as an "established public market" for determining the public market price. The OTC Pink is not considered as such. Thus, most broker-dealers do not

trade or recommend OTC Pink stocks. Since the OTC QB dramatically increases transparency, reporting standards, management certification and compliance requirements, most broker-dealers trade stocks on the OTC QB.

The Company will continue to trade under the symbol "WSFT".

As a verified market with efficient access to U.S. investors, OTC QB is an established public market that will help Wikisoft build shareholder value while working to enhance liquidity and achieve a higher valuation. Being on the OTC QB also increases transparency, reporting standards, and compliance requirements welcomed by investors and institutional investors. The Company believes the move to the OTC QB will provide substantial investor benefits including higher reporting standards, enhanced access to analyst coverage, increased Market Maker presence and comprehensive compliance requirements.

WSFT is currently fulfilling OTC Markets' uplisting requirements and has a full audit of all financial records for the prior two years of operations.
