Overview
The report suggests the Global Hyaluronic Acid Based Dermal Fillers market size in the year 2017 was $3.20 billion. But looking at the growing usage and demand for the fillers, experts have anticipated that during the forecast period, it will increase at 8.31 percent of CAGR. Some significant reasons behind this are increasing income and the massive influence of social media. On the other side, technological innovations in this industry have also propelled this filler market across the world, and it is expanding with time.

Such types of fillers are generally used to carry out aesthetic procedures. For example, to enhance nasolabial folds, reducing dark circles, eye wrinkles, and more. These injections are quite easy to use and don't cost much. Such advantages related to this filler will definitely propel the growth of this market from 2015 to 2023.Growing awareness and popularity of the procedure, FDA approved products, like Restylane, Juvederm, and Perlane, are also expected to drive the market across the world in the future.

As per a report of the International Society of Plastic Surgery, around 8,500,000 non-surgical procedures were done in the year 2016 across the globe. Growing health consciousness and awareness about the changing beauty standards is led to growth in the demand for aesthetic procedures. This will put a positive impact on the overall market growth. In the years 2015 and 2016, hyaluronic acid injectable was one of the most frequently performed procedure American region. But now it is expanding to the other areas.

Global Market Segmentation
The World Hyaluronic Acid Based Dermal Fillers market is segmented on the basis of type, end-users or applications and regions. On the basis of type, it is split into Duplex products and Single-phase product. Based on the end-users or application, it is segmented into Sculpting, Bootlegging, Fill scares, and others. The report says the single-phase product segment will witness the fastest compound annual growth rate following the increasing preference and expansion of treatment. Different studies have proved that these products are less painful than the duplex products. Well, the duplex products market will also witness a decent CAGR during the forecast period.

Regional Market Segmentation
The Global Hyaluronic Acid Based Dermal Fillers market is segmented into five major regions. They are Europe, South America, North America, Asia Pacific, and Middle East & Africa. Besides, the report also includes some major countries such as Canada, U.S., Mexico, France, UK, Russia, Germany, Spain, Brazil, Argentina, Japan, China, India, Saudi Arabia, South Africa, and more.
