

Cimcor named in Hot 150 Cybersecurity Companies for 2020

IT Security, Integrity, and Compliance-oriented cybersecurity firm named to distinguished annual list of the world's hottest pure-play cybersecurity companies.

MERRILLVILLE, IN, UNITED STATES, October 24, 2019 /EINPresswire.com/ -- Merrillville, IN October 21, 2019 - Cimcor, Inc, a global provider of security, integrity and compliance software solutions, has been named one of the "[Hot 150 Cybersecurity Companies](#)" to watch in 2020. The list is published by Cybersecurity Ventures, who evaluated Cimcor and its [advanced file and system integrity monitoring software, CimTrak](#).

"Earning a spot on this prestigious list further validated our vision to provide in-depth, real-time insight into all changes throughout the enterprise", says Robert E. Johnson, III, president and CEO of Cimcor, Inc. "Our focus has been, and will continue to be to help secure our customers with actionable intelligence, helping them to succeed in spite of the relentless pace of technological change and ever-growing threats.

Acknowledged as one of "the hottest and most innovative companies in the market focused exclusively or primarily on cybersecurity", CimTrak's next-gen file and system integrity monitoring software helps enterprises and government agencies not only detect unexpected changes and unauthorized modifications, but it can also help with the remediation process.

“

Our focus has been, and will continue to be to help secure customers with actionable intelligence, helping them to succeed in spite of the relentless pace of technological change/ever-growing threats.”

Robert E. Johnson, III

"Cimcor has been an innovator in the security, integrity and compliance software space since 1997, which makes them one of the longest standing pure-play companies on our list", says Steve Morgan, founder and Editor-in-Chief for Cybercrime Magazine. "Their widely popular CimTrak Integrity Suite is used by a global customer base for change management, auditing, file integrity monitoring, and integrates with the leading SIEM solutions."
