

# Bottled Air Market 2019, Global Industry Analysis, Size, Share, Growth, Trends and Forecast - 2024

---

*A New Market Study, titled "Bottled Air Market Upcoming Trends, Growth Drivers and Challenges" has been featured on WiseGuyReports.*

PUNE, MARKETERSMEDIA, INDIA, October 25, 2019 /EINPresswire.com/ -- Summary

A New Market Study, titled "Bottled Air Market Upcoming Trends, Growth Drivers and Challenges" has been featured on WiseGuyReports.

This report provides in depth study of "Bottled Air Market" using SWOT analysis i.e. Strength, Weakness, Opportunities and Threat to the organization. The Bottled Air Market report also provides an in-depth survey of key players in the market which is based on the various objectives of an organization such as profiling, the product outline, the quantity of production, required raw material, and the financial health of the organization.

This market report offers a comprehensive analysis of the global Bottled Air market. This report focused on Bottled Air market past and present growth globally. Global research on Global Bottled Air Industry presents a market overview, product details, classification, market concentration, and maturity study. The market value and growth rate from 2019-2025 along with industry size estimates are explained.

The latest advancements in Bottled Air industry and changing market dynamics are key driving factors to depict tremendous growth. Also, the risk factors which will have a significant impact on the Global Bottled Air industry in the coming years are listed in this report. The revenue-generating Bottled Air types, applications, and key regions are evaluated. Top growing regions and Bottled Air industry presence cover Asia-Pacific, North America, Europe, Middle East, African countries and South America. This Bottled Air business study also analyzes the top countries in these regions with their market potential.

Key manufacturers are included based on company profile, sales data and product specifications etc.:

Air Liquide (France)  
Air Products & Chemicals (U.S.)  
Linde (Germany)  
Praxair (U.S.)  
Taiyo Nippon Sanso Corporation (Japan)  
Airgas (U.S.)  
Messer Group (Germany)  
Cryotec Anlagenbau (Germany)  
Gulf Cryo (Bahrain)  
AIR WATER (Japan)

## Market Overview

Global bottled air market is also known as the market for compressed air applications. Due to the wide variety of applications of compressed air, the market has witnessed major diversification in recent years. This includes applications in automotive, aerospace, general manufacturing, specialized manufacturing like glass, electronics, chemicals, healthcare, wood products, plastics, power generation, and more. Additionally, the market serves a wide variety of key needs for end users. For example, in automotive, compressed air applications include stamping, conveying, tool powering, and actuators. In the petroleum sector, these applications include actuators, process gas compressing, and controls. The widespread availability of raw materials, the established norms of operation, and the wide range of applications are signature features of the bottled air market.

## Segmentation

The global bottled air market is segmented on the basis of product types. There are a wide variety of gases which are compressed for a range of industries. These include oxygen, nitrogen, helium, carbon, and others. Additionally, two broad categories – industrial and medical are used to segment the bottled air market based on its application. Among the various product types in the global bottled air market, the nitrogen products are likely to witness major growth. Nitrogen is used for pressuring, purging, mixing, and blanketing. It can prevent moisture from entering products, and prevent further damage. Intrusion of moisture can be extremely costly to the food sector as it leads to degradation, contamination, intrusion of bacteria, and other issues. Moreover, nitrogen is growing in demand in healthcare for anesthetic purposes. The rising cases of chronic illnesses, and accident fatalities are expected to drive significant growth for the segment.

## Regional Analysis

The global bottled air market is divided by regions into North America, Europe, Asia Pacific, Latin America, and Middle East & Africa. Among these, the North American region is expected to witness the highest growth in total revenues during the forecast period. Moreover, the bottled air market is expected to register the fastest growth in Asia Pacific. Growing manufacturing in the region, improving access to healthcare and rising disposable incomes are expected to result in significant growth.

## Industry News

A pair of entrepreneurs from Alberta, Canada is making headlines around the world. These two entrepreneurs have found a way to compress fresh Canadian mountain air in bottles and find a burgeoning market in China. The rising population worldwide, and large population in Asian countries are making this an appealing venture in China, India, and South Korea. They manage to sell a bottle of pure air to their customers online for as much as \$32. Despite a simple online presence, they continue to double their turnover each year and are grossing \$3 million in annual sale each year. The direct consumer application for fresh air promises a major boon for the bottled air market as profit margins are likely to be higher.

## Major Key Points in Table of Content

1 Global Market Overview

2 Regional Market

3 Key Manufacturers

4 Major Application

5 Market by Type

6 Price Overview

## 7 Conclusion Fig Global Bottled Air Market Size and CAGR 2013-2018 (Million USD)

### Conclusion

The Global demand for Bottled Air Market is forecast to report strong development driven by consumption in major evolving markets. Region wise government policy, market environment, competitive landscape, present trends in the market, technological innovation, upcoming technologies and the technical progress in related industry are all important factors impacting the growth of the market. Since more growth opportunities are expected to come up between 2019 and 2025 compared to a few years ago, it signifies the rapid pace of change and is safe to say that the Bottled Air market development status and future trend is expected to be promising across the world.
