The rising usage of tablets and laptops by K-12 schools' student and students from higher education colleges has brought a new trend of secure storage units in the libraries. Furthermore, all most all the libraries nowadays are not treated as a place for studies. Most of higher education colleges and K-12 schools have now multimedia centers which have enabled the

students to enjoy active learning with their guides and faculties. So, this has introduced the new trend of using multifunctional furniture for better seating.

The report says, in the coming years, the demand for such furniture in some regions such as North America, Asia Pacific, and Europe will grow extensively, and that will drive the Library Furnitures market. Online sale of the furniture will also drive the growth of the market. It has been seen that some specification of the furniture can be customized or changed as per the user's requirement through online platforms. So, the online sales of the furniture are expected to propel the market growth.

Segmentation of Global Market

The Global Library Furnitures Market is segmented based on Type, End-users, and Regions. Based on the type, the market is segmented into Shelving Computer Workstations, Displays, Tables, and Service Desks. Considering the end-users, it is split into Academic Libraries, Public Libraries, Special Libraries, and School Libraries. The report says, in the year 2016, the library shelving segment witnessed for the maximum shares of the global market. It was around 40 to 50 percent of the entire market share. Shelves or racks meet the requirement to store different collections of content and courseware for students. So, this segment attributes more to the global market.
