MaryPat Potts Founder of Vision Venturing

With over a decade of professional experience and a plethora of personal experience, MaryPat's personal journey began at an early age, full of self-exploration. The passing of her brother at the age of 20 years old was a major wake-up call. It caused an understandable shake up within her family and their inner-workings, testing MaryPat's stability and mental wellness. MaryPat would go on to overcome several personal obstacles including low self-esteem, weight gain and issues with self-image/worth.

MaryPat overcame these challenges and forged ahead through several incredible saving graces -

her spirituality, her involvement with the Church, her then boyfriend, now husband, whom she calls her biggest champion and supporter. With this support, MaryPat decided to incorporate her experiences, the expertise of various certifications, and set out to help others in need.

With the foundation of Vision Venturing, MaryPat works with people from all backgrounds who may struggle with a variety of personal and professional dilemmas, as we all do from time to time. Through various programs and spiritual adventures, MaryPat brings her result-oriented approach to every client with whom she works, acting in partnership with them to empower them to heal their spirit and open themselves up to the possibilities their lives offer. Through simple, natural and open-ended conversation, and creative activities to help people see things in new ways, MaryPat allows her clients to open up to her organically to identify the core issues and together come to genuine and long lasting solutions.

From guiding a retreat, facilitating creative workshops, speaking presentations, and one-on-one or small group coaching, MaryPat is able to deeply connect with her clients. While she primarily holds sessions in person, MaryPat is accessible by Skype, phone and video conferencing. All of MaryPat's wonderful services can be found at www.visionventuring.org.

"I'm a possibilities person... I open the possibilities up for people. It's about putting the pieces together. I work with people to teach them not to just react to life, but to respond to what life throws them with power. This happens when they create new outlooks - or Vision - that create new life steps, aligned with their values and supported by their higher power. Venturing is the journey of discovering what I can do to help people bring out their truest selves," exclaims Potts.
